Sample Container Return Form

CONSCI

www.consci.com

Merlin MicroScience

Consolidated Sciences

At CONSCI we work hard to ensure that all sample containers are returned in a timely manner. Our facility is unable to accomodate material beyond what is required for testing and because of routine inspections at our facility, we must return all samples as soon as the project is complete. In addition, please note that our facility is not equipped with a loading dock and we do not have a forklift; all oversize deliveries and pickups must have a lift gate.

Sample/Project Description

Pease describe your testing and/or your sample container including a purchase order if applicable and any distinctive characteristics of the container such as the cylinder number.

Return Shipping Contact

Name: _____ Email: _____

Office Phone: _____ Other Phone: _____

Return Shipping Address:

Should I notify someone other than the above contact that we are returning your samples?
